

**TRIBAL NATURE-BASED SOLUTIONS  
GRANT PROGRAM  
DRAFT GUIDELINES**

**STATE OF CALIFORNIA  
NATURAL RESOURCES AGENCY  
JANUARY 2023**

(Page intentionally left blank)

## TECHNICAL ASSISTANCE FOR THE GRANT PROGRAM WORKSHOPS

The California Natural Resources Agency will conduct online workshops for technical assistance for applying for this program. A list of workshop dates and times can be found on the California Natural Resources Agency website at <https://resources.ca.gov/grants>. All workshops will be held online.

**Please RSVP in order to receive login information. Each workshop will have a limited number of participants. RSVP one of three ways:**

Online: **NEED LINK HERE**

Email: [tribalaffairs@resources.ca.gov](mailto:tribalaffairs@resources.ca.gov)

Phone: (916) 653-5656

The California Natural Resources Agency will conduct online open office hours for technical assistance for applying for this program. A list of open office hour dates and times can be found on the California Natural Resources Agency website at <https://resources.ca.gov/grants>. All office hours will be held online.

These Guidelines include information to assist applicants in applying for funding. Please read them in their entirety for important information on project eligibility, evaluation criteria and submission requirements.

For general project evaluation process questions, contact the California Natural Resources Agency at:

**Phone:** (916) 653-5656

**Email:** [tribalaffairs@resources.ca.gov](mailto:tribalaffairs@resources.ca.gov)

**Website:** [Tribal Affairs \(ca.gov\)](https://resources.ca.gov/tribal-affairs)

## HOW TO SUBMIT

This grant program consists of a progressive, four-step evaluation process:

- 1) Preliminary Project Proposal
- 2) Project Proposal
- 3) Field Visit or Project Presentation
- 4) Supporting Documents

All Preliminary Project Proposal (Step 1) should be submitted via email or mail to the California Natural Resources Agency at:

[tribalaffairs@resources.ca.gov](mailto:tribalaffairs@resources.ca.gov)

or

California Natural Resources Agency  
Attn: Tribal Nature-Based Solutions  
715 P Street, 20th Floor  
Sacramento, CA 95814

The California Natural Resources Agency will provide an online submittal system for the Project Proposals and Supporting Documents (Step 2 and 4). Email or mail submissions will also be accepted at:

[tribalaffairs@resources.ca.gov](mailto:tribalaffairs@resources.ca.gov)

or

California Natural Resources Agency  
Attn: Tribal Nature-Based Solutions  
715 P Street, 20th Floor  
Sacramento, CA 95814

## INTRODUCTION

Pursuant to Chapter 249, statutes of 2022 (Assembly Bill 179), the California Legislature appropriated \$70 million to the California Natural Resources Agency (CNRA) for competitive grants for Native American tribes located within the state of California. These funds are available for encumbrance or expenditure until June 30, 2027. In response to the consultations and input received from California Native American tribes during the tribal consultations on Governor Newsom's Executive Order N-82-20 (Nature-Based Solutions Executive Order), the *Pathways to 30x30 Strategy*, and *Natural and Working Lands Climate Smart Strategy*, the Newsom Administration proposed to the California Legislature the funding and creation of the new Tribal Nature-Based Solutions program to support tribal nature-based solutions priorities. This new program and grant funds will assist California Native American tribes in advancing multi-benefit nature-based solutions consistent with the 2021 Nature-Based Solutions trailer bill, Chapter 258 of the Statutes of 2021, the *Pathways to 30x30 Strategy*, and the *Natural and Working Lands Climate Smart Strategy*.

### Funding Allocation

Approximately \$70 million is available for tribal multi-benefit nature-based solutions projects. Grant application rounds will be open on a quarterly basis, until there are no funds available. CNRA may utilize these funds to support direct expenditures, block grants, contracts, or competitive grants, and may be used for support or local assistance.

### Grant Amounts

The minimum award amount is \$200,000.

### Eligible Applicants

Eligible applicants include federally recognized California Native American tribes or non-federally recognized California Native American tribes located in California. Applications can be submitted on behalf of inter-tribal consortium, collaboratives, or partnerships, but the primary applicant must be a California Native American tribe.

Non-tribal government entities may support California Native American tribes in applying for program and may serve as the primary applicant, but the application must show a California Native American tribe is actively partnering with and supporting the application through a signed letter or resolution from the Chairperson of the tribe and describe how the project will serve the supporting tribe and community. Please note, CNRA will call the Chairperson or their official designee of the supporting tribe to confirm if the non-tribal government entity has been authorized to submit an application on behalf of the tribe.

## Eligible Projects

This program is a competitive grant program to support California Native American tribes located within the State in advancing multi-benefit nature-based solutions projects. Eligible projects will focus on the following categories:

1. Planning for multi-benefit nature-based solutions projects.
2. Implementation of multi-benefit nature-based solutions projects.
3. Return of ancestral lands for the purpose of advancing multi-benefit nature-based solutions projects.

## STATUTORY REQUIREMENTS AND PRIORITIES

### General Requirements

1. Projects must serve California Native American tribes and their communities located within the State of California. These projects may be on or off reservation and trust lands. In the event projects are on lands under federal jurisdiction, applicants must obtain permission from the federal government.
2. Projects must be multi-benefit nature-based solutions projects consistent with the multi-benefit nature-based solutions called for in California's *Natural and Working Lands Climate Smart Strategy* and/or *Pathways to 30x30 Strategy*. Both strategies are available at [www.californianature.ca.gov](http://www.californianature.ca.gov).

### Funding Priorities

Applicant must propose a planning **OR** implementation **OR** return of ancestral lands project that serve California Native American tribes and their communities, protects the environment, and meets the multi-benefit nature-based solutions requirement. Return of ancestral land projects will receive a higher priority than planning or implementation projects that do not have a land return component.

Please note, implementation and return of ancestral lands projects may be required to have permanent conservation or public access components included in the final grant agreement. These may include conservation and public access easements or other deed restrictions. Please further note, projects may require limited waivers of sovereign immunity and post project monitoring and reporting, which will be determined on a case-by-case basis and dependent on the type and scope of the project.

Planning, implementation, or return of ancestral lands projects containing any of the following elements will be given priority consideration in funding decisions:

#### Planning Projects

1. Planning activities to prepare the applicant to apply for and likely qualify for future implementation funding from another funding round of the Program or a different state or federal grant for multi-benefit nature-based solutions project.
  - a. Priority will be given to planning projects that can show which specific state or federal grant program the applicant is planning to apply to, and how state funding will make them a competitive or prepared applicant for that funding.
  - b. Priority will be given to planning projects that already have state or federal funds for some component of the applicant's project. There is no match requirement to participate in the Program.
2. Planning activities to prepare a California Native American tribe for a multi-benefit nature-based solutions project, including, but not limited to; securing permitting; regional planning and project prioritization; grant administration/bookkeeping; project management; partnership and collaborative development; facilitation and dispute resolution; Geographic Information Services; and economic development and financing planning for multi-benefit nature-based solutions projects.
3. Traditional Ecological Knowledge, scientific studies, monitoring, or other technical analyses that advance multi-benefit nature-based solutions projects.

#### Implementation Projects

1. A multi-benefit nature-based solutions project that is ready to implement. "Ready to implement" means projects in which 25 percent or less of the requested grant funding will be used for planning, permitting, or administrative costs and the project can be completed within two years of grant award. Projects may include costs associated with applying for additional grant or other funds to maintain and monitor the project post project completion.

#### Ancestral Land Return Projects

1. The acquisition of fee property, cultural and/or conservation easements, or water rights/instream flows within the California Native American tribal applicant's ancestral territory.
  - a. These projects must be from willing sellers and at a price that does not exceed the fair market value. Fair Market value is established by an

appraisal prepared by a licensed real estate appraiser and approved by the Department of General Services (DGS). A completed appraisal, approved by DGS' Real Property Services Section, is not required at the time of application submission. Costs of securing a completed appraisal may be included as eligible expenses for this program.

- b. Proposed acquisitions should have basic title analysis including analysis of the legal access, encumbrances, and current ownership before CNRA evaluates the opportunity. This title analysis must be included with project proposal applications (Step 2). If no legal access is available or the property is encumbered by judgments, liens, deeds of trust, or other clouds prospective applicants should address how these obstacles will be overcome.
  - c. All conservation easements must conform to statutory requirements of Cal. Civ. Code § 815 and CNRA guidelines and minimum standards. Conservation easements may also be required to contain language at the request of CNRA.
  - d. All water rights acquisitions must exhibit clear chain-of-title and documented history of use. No abandon or factional rights will be considered.
2. These projects must also include at least one planning or implementation multi-benefit nature-based solutions project associated with the purchase of property. For example, a project could include the purchase of ancestral land and planning for a restoration project on the newly purchased property. Projects may include costs associated with applying for additional grant or other funds to maintain and monitor the project post project completion.
3. Priority will be given to ancestral land return projects that:
- a. Are within current reservation boundaries and addresses "checkerboarding" issues or are directly adjacent to reservation or trust land boundaries
  - b. If in shared ancestral territories, will be jointly owned and/or managed by inter-tribal consortium, collaborative, or partnership
  - c. Are directly adjacent to conserved lands or coastal waters and improving habitat connectivity

- d. Are eligible, seeking, or have secured partial funding from other state, federal, tribal, or private funds
- e. Contain sacred sites, burial grounds, or ceremonial locations and/or will be used for the reburial of ancestors

### Other Funding Considerations

In evaluating project proposals, scores are used to determine initial rankings and facilitate discussions for each proposal among a multidisciplinary evaluation team, include technical advisors. To achieve equitable distribution of funds, the State may consider additional factors including, but not limited to geographic distribution of funds, previous grant performance, likelihood of successful project implementation, and feasibility to accept partial funding.

### Examples of Potential Funded Activities

This program is a competitive grant program to support California Native American tribal planning, implementation, or return of ancestral lands multi-benefit nature-based solutions projects.

Applicant must propose a planning **OR** implementation **OR** return of ancestral lands project.

Below is a list of eligible project activities; this is not a comprehensive list of examples. The State encourages applicants to review the *Natural and Working Lands Climate Smart Strategy* and the *Pathways to 30x30 Strategy* at [www.californianature.ca.gov](http://www.californianature.ca.gov) for additional examples of projects that may qualify for the Program.

#### Planning Activities

- Preparation of CEQA and/or NEPA compliance documents
- Surveying and/or mapping of proposed project areas
- Development of site maps and implementation plans
- Obtaining project permits
- Preparing and delivering an outreach campaign targeted at adjacent landowners, tribes, community partners, etc.
- Researching and training tribal workforce, cultural practitioners, and/or staff on multi-benefit nature-based solutions skill sets, Traditional Ecological Knowledges, and/or other tribal expertise for the purpose of apply to or participating in a specifically identified federal, state, or philanthropic grant process

- Developing restoration plans that can incorporate cultural activities to increase biodiversity, restore habitats and improve wildfire resiliency, forest health, and/or increase access to traditional foods and materials
- Developing a workforce development component of a future multi-benefit nature-based solutions project(s)
- Planning for one or more of the implementation activities listed below

#### Implementation Activities

- Implementation and maintenance up to January 1, 2029, of multi-benefit nature-based solutions projects.
- Obtaining grant or other funding for the maintenance and monitoring of the implementation project. For example, covering the hourly costs of staff preparing grant applications.

#### Return of Ancestral Lands Activities

- Costs associated with the purchase of fee property, conservation easements, and water rights/instream flows.
- Costs associated with the planning or implementation multi-benefit nature-based solutions project.
- Costs associated with maintenance of the property up to January 1, 2029.
- Obtaining grant or other funding for the maintenance and monitoring of the implementation project. For example, covering the hourly costs of staff preparing grant applications.

#### **Ineligible Project Examples**

The list below provides examples of projects and elements that are not eligible under the Program. This is not an exhaustive list.

- Projects that do not serve tribes and/or tribal communities
- Projects that are not multi-benefit nature-based solutions projects
- Project Proposals that include more than one project (however, more than one Project Proposal can be submitted by an applicant)
- Implementation projects contingent on future land acquisition for project, unless submitted as part of an application for a return of ancestral lands project
- Cash reserves, endowments, or fundraising activities
- Payment of a debt or mortgage
- Lobbying or lawsuits
- Implementation projects where the applicant cannot satisfactorily gain permission to develop/maintain the site
- Ancestral land return projects that do not have willing sellers

## SELECTION PROCESS

### Step 1

- Applicants submit Preliminary Project Proposals by email or mail to the California Natural Resources Agency. Email submissions are preferred.

[tribalaffairs@resources.ca.gov](mailto:tribalaffairs@resources.ca.gov)

or

California Natural Resources Agency  
Attn: Tribal Nature-Based Solutions  
715 P Street, 20th Floor  
Sacramento, CA 95814

- Preliminary Project Proposals are reviewed and evaluated. Incomplete or ineligible Project Proposals may be removed from the competitive process. Applicants may be required to provide additional documentation prior to receiving an invitation to submit a Project Proposal.

### Step 2

- After review of Preliminary Project Proposals and once applicants are invited to submit Project Proposals, applicants will be asked to submit Project Proposals through an online system. Project Proposals may be emailed or mailed to the California Natural Resources Agency. Online and email submissions are preferred.

[tribalaffairs@resources.ca.gov](mailto:tribalaffairs@resources.ca.gov)

or

California Natural Resources Agency  
Attn: Tribal Nature-Based Solutions  
715 P Street, 20th Floor  
Sacramento, CA 95814

- Project Proposals are reviewed and evaluated. Incomplete or ineligible Project Proposals may be removed from the competitive process.

### Step 3

- Field visits or, at the discretion of CNRA, project presentations are conducted for the most competitive projects. Applicants may be required to provide additional documentation prior to a field visit or project presentation.

### Step 4

- Applicants selected to further compete will submit additional documentation.
- Documentation is evaluated, with the most competitive projects being recommended for funding.

Once Step 4 evaluations have been completed, recommendations are submitted to the California Secretary for Natural Resources. Upon approval by the Secretary, grant awards are announced. Note, once an applicant has begun the process, the applicant or any individual members of tribal councils, governance bodies, tribal staff, or partnering organizations cannot meet with the Secretary to discuss the project prior to selection decisions.

All information contained in the Project Proposal and supporting documentation is confidential until grant awards are announced.

The State reserves the right to reject any Project Proposal from an applicant who is in violation of law or policy at any other public agency. Potential violations include, but are not limited to, being in default of performance requirements in other contracts or grant agreements issued by the State, being engaged in or suspected of criminal conduct that poorly reflects or brings discredit to the State, and/or failing to have all required licenses necessary to carry out the project.

The State further reserves the right to reject any Project Proposal from an applicant who has a history of performance issues with past grants or other agreements with any public entity.

### **Conflict of Interest**

All applicants and individuals who participate in the review of submitted Project Proposals are subject to state and federal conflict-of-interest laws. Any individual who has participated in planning or setting priorities for a specific solicitation over and above the tribal consultation or public comment process, or who will participate in any part of the grant development and negotiation process on behalf of the public is ineligible to receive funds or personally benefit from funds through that solicitation. Failure to comply with conflict-of-interest laws, including business and financial disclosure provisions, will result in the Project Proposal being rejected and any subsequent grant agreement being declared void. Other legal actions may also be taken. Applicable statutes include, but are not limited to, California Government Code section 1090 and Public Contract Code sections 10365.5, 10410, and 10411.

### **EVALUATION AND SCORING CRITERIA**

Information provided during the evaluation process should demonstrate how effectively the proposed project meets statutory requirements, funding priorities, and program objectives. Projects will be evaluated using established criteria and any additional funding considerations. Project Proposals will receive an initial ranking, with a score of 100 or 150 points possible. The initial ranking will be used to facilitate discussions about each proposal among a multidisciplinary evaluation team. The State reserves the right to utilize the following considerations in the review of proposals, including, but

not limited to, best value, regional distribution, type, and likelihood of success of projects.

Each project will be evaluated for eligibility utilizing answers to the questions in the Requirements and Project Need section. Points will be attributed to the answers to the questions within the Funding Priorities sections (Planning OR Implementation OR Return of Ancestral Lands) and the Organizational Capacity section and not to individual questions.

### Scoring Criteria for Project Proposals (Step 2)

Planning Project Scoring Criteria	Points
Planning activities to <b>prepare</b> the applicant to apply for and likely qualify for future implementation funding from another funding round of the Program or a different State or Federal grant for multi-benefit nature-based solutions project.  Points can be awarded if the applicant show the planning efforts will support future applications for implementation projects, has identified which specific grant program and timeline the applicant is apply for, and/or support tribal capacity to successful plan a project, including, but not limited to, securing permitting.	0-20
<b>Quality</b> of the proposed planning activities to support multi-benefit nature-based solutions projects.	0-25
The components of the planning activities. Points should be awarded to applicants that have clear direction on the projects planning needs. For example, has the applicant provided a detailed list of the required permits or work plan?	0-15
<b>Assessments of the baseline</b> of conditions have occurred.	0-10
Planning to include a workforce development, Traditional Ecological Knowledge, scientific studies, or other technical analysis, and/or	0-20

capacity building aspect into a proposed project.	
Organizational Capacity	0-10
<b>Total Points Possible</b>	100

<b>Implementation Project Scoring Criteria</b>	<b>Points</b>
Quality of the proposed implementation ready projects. “ <b>Ready to implement</b> ” means projects in which 25 percent or less of the requested grant funding will be used for planning, permitting or administrative costs and the project can be completed within two years of grant award.	0-20
Implementation activities to support multi-benefit nature-based solutions projects. Points should be awarded based on the <b>quality</b> of the proposed project and the multi-benefit components.	0-25
The applicants have shown <b>likelihood of successful</b> implementation of the project. For example, has the applicant provided a detailed list of the key components of the implementation project?	0-20
Implementation activities include a workforce development, utilization or study of Traditional Ecological Knowledge, and/or economic development component into a proposed project.	0-20
Plan for the long-term maintenance and monitoring of the implementation project, including strategies to acquire future funding.	0-10
Organizational Capacity	0-10
<b>Total Points Possible</b>	100

Return of Ancestral Land Project Scoring Criteria	Points
<p>Property purchase has important significance to the applicant Tribe and supports nature-based solutions priorities.</p> <p>Additional points should be awarded if the project meets any of the below priorities:</p> <ul style="list-style-type: none"> <li>- Are within current reservation boundaries and addresses “checkerboarding” issues or are directly adjacent to reservation or trust land boundaries</li> <li>- If in shared ancestral territories, will be jointly owned and/or managed by inter-tribal consortium, collaborative, or partnership</li> <li>- Are directly adjacent to conserved lands or coastal waters and improving habitat connectivity</li> <li>- Contain sacred sites, burial grounds, or ceremonial locations</li> </ul>	0-20
<p>Implementation or planning activities to support multi-benefit nature-based solutions projects. Application Reviewers, please use either the Planning Project or Implementation Project Scoring Criteria listed above when considering points for this section. Points should be awarded based on the quality of the proposed project and the multi-benefit components.</p>	0-100
<p>Is the property and/or applicant eligible, seeking, or have secured funding for other state, federal, tribal, or private funds to support the purchase of the property?</p>	0-10
<p>Plan for the long-term ownership and management of the project, including strategies to acquire future funding.</p>	0-10

Organizational Capacity	0-10
<b>Total Points Possible</b>	150

## STEP 1: PRELIMINARY PROJECT PROPOSAL

Applicants are required to submit a Preliminary Project Proposal by email or mail to the California Natural Resources Agency. Email submissions are preferred. Refer to the solicitation due dates.

[tribalaffairs@resources.ca.gov](mailto:tribalaffairs@resources.ca.gov)

or

California Natural Resources Agency  
Attn: Tribal Nature-Based Solutions  
715 P Street, 20th Floor  
Sacramento, CA 95814

Applicants proposing the most competitive eligible Preliminary Project Proposals will be invited to submit a full Project Proposal. Incomplete or noncompliant Preliminary Project Proposals may be eliminated from the competitive process.

All Preliminary Project Proposal submittals will include the following:

### 1. Project Summary

Describe the discrete project including expected project deliverables. Summaries are limited to 4,000 characters. Applications containing summaries over the 4,000-character limit will most likely be rejected. CNRA reserves the right to make an exception and will only do so in very limited situations. Applicants are strongly advised to adhere to the 4,000-character limitation for the below summaries.

- a. Describe if the project is a Planning OR Implementation OR Return of Ancestral Lands project. Only one can be selected.
- b. Describe the goals and objectives of the project, how it will serve the tribe and/or surrounding communities, how it is a multi-benefit nature-based solutions project, and how the project will be evaluated, including metrics that can be used to evaluate the progress and success of the grant.
- c. Include a brief description of current site conditions, baseline conditions, and expected benefits of the project.

## 2. Preliminary Project Questions

All applicants must answer the Project Questions - Requirements and Project Need questions. If a question does not apply to the project, indicate "Not Applicable" with a brief explanation. Do not leave blank fields. Answers are limited to 4,000 characters. Applications containing answers over the 4,000-character limit will most likely be rejected. CNRA reserves the right to make an exception and will only do so in very limited situations. Applicants are strongly advised to adhere to the 4,000-character limitation for the below answers.

- a. Project Type (**CHOOSE ONE**)
  - i. Planning project
  - ii. Implementation project
  - iii. Return of Ancestral Lands project
- b. Provide a detailed description of the California Native American tribe(s) that will be served by the project. Include official name of the tribal government(s), tribal demographics, and description of tribal ancestral lands. Please include a map of the tribe(s) ancestral lands with the project location indicated. Note, only projects within the applicant's ancestral land will be eligible.
- c. Explain how the project addresses a critical need for the applicant and tribe(s).
- d. How will the planning or implementation or return of ancestral lands project incorporate multi-benefit nature-based solutions in the applicant's ancestral lands? Describe the multi-benefit nature-based solutions components to the proposed project.
- e. Will the planning or implementing or return of ancestral lands project rely on consortium, collaboratives, or partnerships with other tribes and entities? If so, describe the nature of the partnership, the corresponding roles of each partner with the planning activities needed for the project, and each partner's point of contact name, phone number, and email address.

### 3. **Attach a map of the tribe(s) ancestral lands clearly marked and indicate the project location.**

## STEP 2: PROJECT PROPOSAL

Invited applicants will be asked to submit a Project Proposal in an online submittal program. Applicants may also submit Project Proposals by email or mail to the California Natural Resources Agency. Online and email submissions are preferred. Refer to the solicitation notice for due dates.

[tribalaffairs@resources.ca.gov](mailto:tribalaffairs@resources.ca.gov)

or

California Natural Resources Agency  
Attn: Tribal Nature-Based Solutions  
715 P Street, 20th Floor  
Sacramento, CA 95814

Applicants proposing the most competitive eligible projects will be invited to compete in the next phase of the evaluation process, a virtual or on-site field visit or project presentation. The most competitive projects receiving a field visit/project presentation will be invited to submit additional supporting documentation for further evaluation. Incomplete or noncompliant proposals may be eliminated from the competitive process.

All Project Proposal submittals will include the following:

### 1. Project Summary

Describe the discrete project including expected project deliverables. Summaries are limited to 4,000 characters. Applications containing summaries over the 4,000-character limit will most likely be rejected. CNRA reserves the right to make an exception and will only do so in very limited situations. Applicants are strongly advised to adhere to the 4,000-character limitation for the below summaries.

- a. Describe if the project is a Planning OR Implementation OR Return of Ancestral Lands project. Only one can be selected.
- b. Describe the goals and objectives of the project, how it will serve the tribe and/or surrounding communities, how it is a multi-benefit nature-based solutions project, and how the project will be evaluated, including metrics that can be used to evaluate the progress and success of the grant.
- c. Include a brief description of current site conditions, baseline conditions, and expected benefits of the project.

### 2. Project Questions

All applicants must answer the Requirements and Project Need questions. In addition, applicants should answer **either the Planning Project Funding Priorities or Implementation Funding Priorities or Return of Ancestral Lands Funding Priorities sections**, as applicable, and the Organizational Capacity section.

If a question does not apply to the project, indicate "Not Applicable" with a brief explanation. Do not leave blank fields. Answers are limited to 4,000 characters. Applications containing answers over the 4,000-character limit will most likely be rejected. CNRA reserves the right to make an exception and will only do so in very

limited situations. Applicants are strongly advised to adhere to the 4,000-character limitation for the below answers.

### **Requirements and Project Need**

- a. Project Type (**CHOOSE ONE**)
  - i. Planning project
  - ii. Implementation project
  - iii. Return of Ancestral Lands project
- b. Provide a detailed description of the California Native American tribe(s) that will be served by the project. Include official name of the tribal government(s), tribal demographics, and description of tribal ancestral lands. Please include a map of the tribe(s) ancestral lands with the project location indicated. Note, only projects within the applicant's ancestral land will be eligible.
- c. Explain how the project addresses a critical need for the applicant and tribe(s).
- d. How will the planning or implementation or return of ancestral lands project incorporate multi-benefit nature-based solutions in the applicant's ancestral lands? Describe the multi-benefit nature-based solutions components to the proposed project.
- e. Will the planning or implementing or return of ancestral lands project rely on consortium, collaboratives, or partnerships with other tribes and entities? If so, describe the nature of the partnership, the corresponding roles of each partner with the planning activities needed for the project, and each partner's point of contact name, phone number, and email address.
- f. Attach a map of the tribe(s) ancestral lands clearly marked and indicate the project location.

### **Planning Project Funding Priorities**

1. Describe the assessments, including, but not limited to, environmental (CEQA/NEPA), hazard, and biological assessments, that have been conducted to date. If an assessment has not occurred, describe what is planned to develop a baseline of conditions.
2. If the applicant will be applying for a State or Federal grant program after completing planning, please specify the grant, provide a website link to information on the grant, and provide the timeframe when the application will be submitted. How will the planning activities paid for by this grant assist the applicant in accessing other grants?
3. Describe what type of planning projects will be completed.

4. How will the project measure success and document outcomes?

#### **Implementation Project Funding Priorities**

1. Describe the project location and its connection to the tribal government(s) served ancestral lands. How will the proposed project benefit the tribe's ancestral lands and community?
2. Describe what multi-benefit nature-based solutions projects will be implemented.
3. Describe in detail the components of the implementation project.
4. Describe the steps that have already been completed on the project and the immediate steps to be taken post-grant award.
5. List all entities with ownership and jurisdiction over the project location and the status of notifications, agreements, meetings, etc. about the project with each owner and jurisdictional entity. Include a list the owner(s) of the project property(ies) and the Assessor's Parcel Numbers (APNs) for each property.
6. If the applicant will be including a nature-based solutions workforce or economic development component within their implementation project, please describe the specific components that will be funded with the grant.
7. How will the effectiveness of the project be monitored and assessed? Include how the tribe will measure success, document outcomes, and know if the project achieved the benefits intended.

#### **Return of Ancestral Lands Project Funding Priorities**

1. Describe the project location as it relates the applicant's ancestral lands, the significance of the property to the tribe and community, the significance of the property for advancing nature-based solutions priorities, and if the project meets any of the below priorities:
  - a. Are within current reservation boundaries and addresses "checkerboarding" issues or are directly adjacent to reservation or trust land boundaries
  - b. If in shared ancestral territories, will be jointly owned and/or managed by inter-tribal consortium, collaborative, or partnership
  - c. Are directly adjacent to conserved lands or coastal waters and improving habitat connectivity
  - d. Are eligible, seeking, or have secured partial funding from other state, federal, tribal, or private funds

- e. Contain sacred sites, burial grounds, or ceremonial locations and/or will be a location for the reburial of ancestors
2. Describe if the project is for the purchase of fee property, conservation easement, or water rights for retirement or other ecological values.
3. Describe what multi-benefit nature-based solutions projects will be planned or implemented after the purchase of property.
  - a. If proposing a planning project, please fill out the Funding Priorities for Planning Projects questions above. If proposing an implementation project, please fill out the Funding Priorities for Implementation Projects questions above.
4. Describe if the owner of the property is a willing seller and list all current owners and jurisdictions over the property. Include a list the owner(s) of the project property(ies) and the Assessor's Parcel Numbers (APNs) for each property. Please note, only projects with willing sellers will be eligible for the Program.
5. Describe the basic title analysis, including the analysis of the legal access to and encumbrances on the property. Applicants may include a title report.
6. Describe the steps that have already been completed on the project and the immediate steps to be taken post-grant award.
7. List all entities that would have future ownership and jurisdiction over the property.
8. Describe the long-term ownership and management plans, including management funding of the project.
9. Describe if the property is in shared ancestral territories with other California Native American tribes and likelihood of any conflict or opposition from other tribes. If so, what actions has been taken to address potential conflict?
10. How will the effectiveness of the project be monitored and assessed? Include how the applicant will measure success, document outcomes, and know if the project achieved the benefits intended.

### **Organizational Capacity**

1. Describe the applicant's experience in completing similar projects. If the applicant doesn't have experience in completing similar projects, please identify the resources or partnerships that will be relied upon and what technical assistance may support the applicant's efforts.
2. Describe the applicant's fiscal capacity to carry out the proposed project.

### **End of Project Questions**

**Required Documentation for Step 2 Project Proposal (For Applicants Invited to Submit Project Proposals) (These documents are not required for the Preliminary Project Proposal [Step 1]).**

The following documents must be included as part of the Project Proposal:

**For All Projects -**

1. **Proposal Form Signature Page** – The signature page of the completed Project Proposal Form should be signed by the same Authorized Representative to be identified in the resolution or certification letter (see Appendix E or Appendix F) and included in the Project Proposal. The signature can be a wet signature or signed electronically.
2. **Cost Estimate** – Provide a cost estimate reflecting all costs associated with the project. Identify costs to be funded by the grant and costs covered by other funding sources. The cost of project elements funded by the Program should not be split between the grant and other funding sources (see Appendix C for a sample format).
3. **Supporting Documentation** - Up to eight pages of documentation that helps illustrate and support the proposed projects, such as, but not limited to, draft workplans, grant solicitation notices, letters from jurisdictional entities, community meeting notes, photographs, or other relevant documentation.
4. **Location and Ancestral Land Map** - Directional map, with enough detail to allow a person unfamiliar with the area to locate the project site. Please indicate the boundaries of the tribe's ancestral lands associated with the project site.

**For Implementation and Return of Ancestral Lands Projects Only -**

5. **Site Plan** – Plans should be for the project for which funding is requested. If the project is part of a larger project, clearly indicate the portions to be grant-funded. Plans should contain specific property details, exterior boundaries, public access points (if applicable), and location of the proposed improvements described in the proposal. The plan should be specific enough to allow someone unfamiliar with the project to visualize it in detail.
6. **Photographs** – Provide up to five (5) labeled color photographs of different views of the project reflecting **current** conditions.

**End of Required Documentation for Step 2 Project Proposal**

### **STEP THREE – FIELD VISIT OR PROJECT PRESENTATION (QUALIFYING PROJECTS ONLY)**

Applicants submitting the most competitive Project Proposals will be further evaluated during a field visit or project presentation. At the field visit or during the project presentation, applicants should be prepared to respond to project-specific questions including, but not limited to, the cost estimate, funding, site plan, project goals, site control, inter-tribal collaborations or considerations, community involvement, operations and maintenance, sustainability, partnerships, transportation, and any possible barriers to completion.

Applicants may be required to provide additional documentation about the project before being granted a field visit or provided an opportunity to present on their project.

#### **End of Step Three Information**

## STEP FOUR - SUPPORTING DOCUMENTATION (QUALIFYING PROJECTS ONLY)

Applicants with the most competitive projects after field visits will be required to submit support documentation further demonstrating their ability to carry out the project.

The following required supporting materials must be included in the Project Proposal. Templates for some materials can be found at <https://resources.ca.gov/grants>.

### For All Projects -

1. **Signed Authorized Resolution or Certification Letter** – Provide a signed authorizing resolution from the applicant's council or governing board (see Appendix E for the required resolution format and content). Resolutions must include all assurances contained in the template. A Certification Letter can be submitted for agencies without a governing board (see Appendix F for required format and content).
2. **Timeline** – Provide an estimated timeline for major project milestones.

### For Planning Projects –

1. **Work Plan** – Provide an outline of the pre-planning and/or planning schedule and work plan including activities. List goals, objectives, benchmarks, evaluation, timeframe, resources, and the position of the person responsible for tasks.
2. **Staff/Contractors and Rates** – Provide a list of staff titles and contractors and each hourly rates.

### For Implementation and Return of Ancestral Lands Projects -

1. **Assessor's Parcel Map** – Provide a photocopy of relevant assessor's parcel maps, with project parcels highlighted and full parcel numbers clearly labeled.
2. **Property Data Sheet** – Provide the completed Property Data Sheet for all parcels included in the project (see Appendix H). Be sure to include properties that do not have parcel numbers (e.g., rights-of-way, etc.).
3. **Proof of Ownership** – Provide copies of documents verifying the current ownership of each parcel listed on the Property Data Sheet. Examples of such documents include tax records, owner data sheets from county records, recorded deeds, title reports, etc. All documents verifying ownership must have parcel numbers clearly indicated on the document (handwritten acceptable).
4. **Adequate Site Control/Land Tenure** – For parcels not owned by the applicant, provide a copy of an agreement giving the applicant legal access to and

permission to construct and maintain the project on the property that expressly addresses potential liability. If an agreement has not yet been executed at the time of submitting supporting documentation, the applicant may submit a signed letter from each landowner identifying the affected parcel(s) and indicating that, if awarded funding, the owner is willing to enter into an agreement with the applicant to allow long-term access for construction and maintenance of the project.

5. **Operation and Maintenance** – If operation and maintenance will be performed by an entity other than the applicant, explain and provide evidence of concurrence from that entity (e.g., operational agreements, letters of intent, memoranda of understanding signed by all parties, etc.). If an agreement has not yet been executed at the time of application, the applicant may submit a signed letter by the entity indicating its intent to enter into such an agreement (see Appendix I for requirements).
6. **Project Permit Approval Status** – Indicate the types of permits necessary to complete the project, timeline of permitting submittal, and potential project delays due to permitting (see Appendix J). If acquiring a long-term encroachment permit, submit evidence the entity with jurisdiction is aware of the project and is willing to work with applicant to issue the permit.
7. **Payee Data Record** – Provide a completed and signed STD 204 Payee Data Record form (see Appendix K).

#### End of Step Four Information

## PROJECT ADMINISTRATION

All projects awarded funding will follow the general administrative procedure outlined below.

1. Grantee attends grant management workshop which addresses project administration, including proper submission of payment requests.
2. State Grant Administrator works with Grantee to develop and execute grant agreement.
3. For planning projects, Grantee submits a proposed Work Plan for state approval.
4. For implementation and return of ancestral lands projects, Grantee submits final site control documents.
5. Grantee commences preliminary project work (planning, outreach, staff training, design, permitting, CEQA, etc.) and submits reimbursement request for eligible expenses (subject to retention).
6. Prior to commencing construction of an implementation project, Grantee submits final design plans for the State's review. After approvals, Grantee commences project construction work.
7. Grantee submits periodic progress reports and periodic reimbursement requests for eligible expenses (subject to retention).
8. Grantee completes project and submits project completion packet.
9. The State conducts final project inspection and approves final payment request(s).

### Changes to Approved Project

Grantees seeking changes or amendments to an approved project must obtain the State's approval prior to conducting or enacting changes. Changes in project scope must continue to meet the need cited in the original Project Proposal. Grantees jeopardize funding should changes be made without prior notice to and approval by the State.

### Eligible Costs

Direct project-related costs and indirect/overhead costs that can be directly tied to the project that are incurred during the project performance period specified in the grant agreement are eligible for reimbursement. All eligible costs must be supported by appropriate documentation, including, but not limited to, timesheets for in-house labor. Costs incurred outside of the project performance period are not eligible for reimbursement. For projects selected for funding, reasonable costs incurred to prepare

project application materials for this Program required in Step 2 – 4 may be eligible for reimbursement. (See Appendix D for further information on Eligible Costs).

### **Site Visits**

The State may make periodic visits to the project site, including a final inspection, and any post project future inspections necessary to ensure ongoing performance and maintenance. The State will determine if the work is consistent with the approved project scope and ensure compliance with all project requirements.

### **Payment of Grant Funds**

Funds will not be disbursed until there is a fully executed grant agreement between the State and the Grantee.

1. Payments will be made on a reimbursement basis. This means the Grantee pays for services, products, or supplies; submits invoices and proof of payment; and is then reimbursed by the State. It generally takes six to eight weeks to receive payment after Grantee submits a completed payment request.
2. Ten percent (10%) of the amount requested for reimbursement may be retained and issued as a final payment upon completion.
3. Advances of up to twenty-five percent (25%) of the grant award at a time may be available upon need. Smaller advances provided on a rolling basis may be available upon need.

### **Loss of Funding**

The following are examples of action that may result in a Grantee's loss of funding. This is not an exhaustive list.

1. Grantee fails to execute a grant agreement.
2. Grantee changes the project scope without prior notice to and approval by the State.
3. Grantee fails to timely submit all required documentation specified in the grant agreement.
4. Grantee fails to complete the project.
5. Grantee fails to provide project updates as requested.

## **Use of Project Property**

Grantee must maintain and operate project property acquired or developed in a manner consistent with the grant agreement and grant guidelines for a period commensurate with land tenure/site control requirements (see Appendix I).

In general, Grantee must have the land held in trust for the Grantee, own the land in fee, own the conservation easement allowing the project, or hold a lease or other long-term agreement allowing the project.

## **Project Reporting**

Grantee is required to keep the State informed of the project's progress throughout the project performance period. Grantee must submit periodic status reports or meet with the Grant Administrator at a minimum of once per quarter.

Grantee maybe required to keep the State informed on post project performance and maintenance. Grantee must submit periodic status reports to be determined on a case-by-case basis.

## **STATE AUDIT AND ACCOUNTING REQUIREMENTS**

### **Audit Requirements**

Projects are subject to audit by the State annually and for three years following the final payment of grant funds. If the project is selected for audit, Grantee will be contacted in advance. The audit shall include all books, papers, accounts, documents, or other records for Grantee as they relate to the project. All project expenditure documentation should be available for an audit, whether paid with grant funds or other funds.

Grantee must have project records, including source documents and evidence of payment, readily available and must provide an employee with knowledge of the project to assist the auditor. Grantee must provide a copy of any document, paper, record, etc., requested by the auditor. Further, Grantees must include planning, monitoring, and reporting necessary to ensure successful implementation of the project objectives and have documentation available for State review upon request.

### **Accounting Requirements**

Grantee must maintain an accounting system that:

1. Accurately reflects fiscal transactions, with necessary controls and safeguards.

2. Provides a good audit trail, including original source documents such a purchase orders, receipts, progress payments, invoices, employee paystubs, and timecards, evidence of payment, etc.
3. Provides accounting data so the total cost of each individual project can be readily determined.

### **Records Retention**

Records must be retained for a period of three years after final payment is made by the State. Grantee must retain all project records at least one year following an audit.

DRAFT

## **APPENDICES FOR STEP 1 – PRELIMINARY PROJECT PROPOSAL**

DRAFT

## **APPENDIX A – SUBMITTAL CHECKLIST FOR PRELIMINARY PROJECT PROPOSALS:**

### **STEP 1 – PRELIMINARY PROJECT PROPOSAL**

The following is included in the Preliminary Project Proposal:	
• Project Proposal Form	
• Project Summary	
• Project Questions	
• Location Map	

## **APPENDICES FOR STEP 2 – PRELIMINARY PROJECT PROPOSAL**

DRAFT

## APPENDIX B – SUBMITTAL CHECKLIST FOR PROJECT PROPOSALS

### STEP 2 – PROJECT PROPOSAL

The following is entered included in the Project Proposal Application:	
• Project Proposal Form	
• Project Summary	
• Project Questions	
The following will be included in the Project Proposal Application:	
• Project Proposal Form Signature Page (print signature page and upload)	
• Cost Estimate	
• Supporting Documents	
• Location Map	
• Site Plan ( <b>Implementation and Return of Ancestral Lands projects only</b> )	
• Photographs ( <b>Implementation and Return of Ancestral Lands projects only</b> )	

## **APPENDIX C – COST ESTIMATE**

In preparing a cost estimate for the project, applicants should comply with the following:

1. All project elements should be detailed and customized to fit the project.
2. Each element should be clearly described in the project narrative.
3. Each funding source must have its own column. Other Funding Source columns headings should specify cash or in-kind.
4. Tribal Nature-Based Solutions Grant and Other Funding Source columns should sum to the Total Cost column.
5. The cost of specific non-labor project elements funded by the grant should not be split between the grant and other funding sources.
6. The estimates provided should be based on quotes by a general contractor, cost estimator, or provided directly by a qualified vendor or sub-contractor.
7. Add/delete elements and funding sources as needed. Be sure all costs are eligible, within allowable limits, and all columns add up correctly.
8. If Implementation Project, total non-construction costs (direct staff time, consultants, permitting, etc.) are capped at twenty-five percent (25%) of the grant request.
9. Contingency costs can be no more than ten percent (10%) of the grant request.
10. Grantees that wish to charge indirect/overhead must include as a separate line item in the budget and limit to 20% of the total direct costs of the grant. In service payroll may not include a “billable rate” or administrative cost allocation. See Appendix D for further information on requirements if requesting indirect/overhead.

**COST ESTIMATE TEMPLATE – PLANNING PROJECTS**

TASKS/PROJECT ELEMENTS	Total Costs	Unit Price	Unit of Measure	Quantity	Tribal Wildfire Resiliency Grant	Other Funding (if applicable)
<b><u>PROJECT ADMINISTRATION</u></b>						
Surveys						
Consultant Contracting						
Permitting and Environmental Compliance						
<b><u>DEVELOPMENT OF WORK PLAN</u></b>						
<b><u>COMMUNITY OUTREACH</u></b>						
Community Forums						
<b><u>MATERIALS AND SUPPLIES</u></b>

- A customizable cost estimate template can be found at <https://resources.ca.gov/grants>.

## APPENDIX D – ELIGIBLE COSTS

Direct project-related costs and indirect/overhead costs that can be directly tied to the project that are incurred during the project performance period specified in the grant agreement are eligible for reimbursement. All eligible costs must be supported by appropriate documentation, including timesheets for in-house labor. Costs incurred outside of the project performance period are not eligible for reimbursement.

### All Projects

1. **Direct Costs** – Costs that are directly tied to the implementation of the project to be funded and incurred during the project performance period specified in the grant agreement. Endowments for ongoing project maintenance are not eligible and will not be reimbursed.
2. **Contingency** – Up to ten percent (10%) of the grant may be budgeted for contingency costs. All contingency costs must be eligible per these guidelines. Contingency funds may not be used to increase the amount of funds that can be used for project management/non-construction (pre-implementation) work. Contingency funds must be reprogrammed into new or existing eligible elements prior to expending. Unspent funds will be returned to the State.
3. **Contracted Services** – The costs of contracted services may be reimbursed if invoices are presented with payment requests that identify the specific project activities and include evidence of payment.
4. **Personnel or Employee Services** – Costs for the services of grantee's employees directly engaged in project execution must be computed according to grantee's prevailing wage or salary scales and may include benefits such as vacation, sick leave, Social Security contributions, etc., that are customarily charged to grantee's various projects.
  - a. Costs charged to the project must be computed on actual time spent on the project and evidenced by time and attendance records describing the work as well as payroll records. Overtime costs may be allowed under grantee's established policy, provided the regular work time was devoted to the same project.
  - b. Salaries and wages claimed for employees working on State grant-funded projects must not exceed grantee's established rates for similar positions.
  - c. Projects must comply with Labor Code Section 1771.5. Therefore, cost estimates should include prevailing wages, as applicable. See the Department of Industrial Relations' Division of Labor Statistics and Research website at <http://www.dir.ca.gov/DLSR/PWD/index.htm> for general prevailing wage determinations. For questions about prevailing wage, contact Department of Industrial Relations.

5. **Supplies and Materials** – Supplies and materials may be purchased for a specific project or may be drawn from a central stock, providing they are claimed at a cost no higher than that paid by the Grantee.
6. **Community Engagement** – Up to ten percent (10%) of the grant may be budgeted for costs of engaging community members through community meetings and events directly related to the project are eligible.
7. **Indirect/Overhead** - Overhead costs are the non-project specific costs of doing business that are not directly related to the implementation of the project to be funded (for example, rent, computers, telephones, office supplies, internet access, copy machines, electricity). Certain types of overhead are not allowed including, food and beverage, fundraising, lobbying and entertainment. Any cost that is billed as a direct cost may NOT be included in indirect/overhead.

Grantees that wish to charge indirect/overhead must be able to document the appropriateness of the charges. One typical method for documentation is to have a Cost Allocation Plan. Other methods may also be adequate, but it is the grantees' responsibility to determine this based on Generally Accepted Accounting Principles. It is recommended that grantees develop an appropriate method for calculating their indirect/overhead rate and determine what costs may be allocated to the grant, subject to the Agency's approval and the 15% limit. It is the responsibility of the grantee to maintain appropriate records for all indirect/overhead costs and to be able to provide those records in the event of an audit.

Indirect/overhead should be included as a line item in the approved project budget and limited to a **maximum of 20%** of total direct costs of a grant.

8. **Other Expenditures** - In addition to the major categories of expenditures, grant funding may be used for miscellaneous costs necessary for execution of the project at the discretion of the State. Some of these costs may include:
  - a. Premiums on hazard and liability insurance to cover personnel and/or property.
  - b. Work performed by another section or department of grantee's agency that can be documented as direct costs to the project (see requirements above under Personnel or Employee Services).
  - c. Transportation costs for moving equipment, program participants, or personnel.
  - d. Training costs for staff to increase cultural, Traditional Ecological Knowledges, and traditional competency.
  - e. For projects selected for funding, reasonable costs incurred to prepare project application materials for this Program required in Step 2 – 4 may be eligible for reimbursement.

## **Implementation Projects**

**1. Project Management/Non-Construction Costs** – Up to twenty-five percent (25%) of grant funds for an implementation project may be spent on project management/non-construction (pre-implementation) costs, including, but not limited to, planning and design, environmental documents, architecture and engineering, construction plans, permitting, and direct project administration and management.

## **2. Implementation/Construction**

- a. All necessary labor and construction activities to complete the project are eligible, including site preparation (demolition, clearing and grubbing, excavation, grading), monitoring (including soil and water testing during implementation), onsite/field implementation, and supervision required for implementation, etc. The grant can pay for up to two years of plant establishment, as deemed appropriate.
- b. Trees, supplies and materials may be purchased for a specific project or may be drawn from a central stock, provided they are claimed at a cost no higher than that paid by the Grantee.
  - Grantees in the business of growing plants may not charge retail rates for plants reared for a project; however, charges for materials and staff time are allowable.
  - Trees larger than 15 gallons in size are not eligible for reimbursement.
- c. Equipment owned by Grantee may be charged to the project for each use. Equipment use charges must be made in accordance with Grantee's normal accounting practices. The equipment rental rates published by the California Department of Transportation may be used as a guide (refer to <http://www.dot.ca.gov/hq/construc/equipmnt.html>).
  - If Grantee's equipment is used, a use log or source document must describe the work performed, indicate the hours used, relate the use to the project, and be signed by the operator and supervisor.
  - Equipment may be leased, rented, or purchased, whichever is most economical. There is a limit of \$400,000 that may be utilized to purchase new equipment.

**APPENDICES FOR  
STEP 4 - SUPPORTING DOCUMENTATION  
(QUALIFYING PROJECTS ONLY)**

DRAFT

## APPENDIX E – RESOLUTION TEMPLATE<sup>1</sup>

Resolution No: \_\_\_\_\_

RESOLUTION (GOVERNING BODY OF GRANTEE)  
APPROVING THE APPLICATION FOR GRANT FUNDS FOR THE  
TRIBAL NATURE-BASED SOLUTIONS PROGRAM

WHEREAS, the Legislature and Governor of the State of California have provided funds for the program shown above; and

WHEREAS, the California Natural Resources Agency has been delegated the responsibility for the administration of this grant program, establishing necessary procedures; and

WHEREAS, said procedures established by the California Natural Resources Agency require a resolution certifying the approval of application(s) by the Applicant's governing board before submission of said application(s) to the State; and

WHEREAS, the Applicant, if selected, will enter into an agreement with the State of California to carry out the project.

NOW, THEREFORE, BE IT RESOLVED that the \_\_\_\_\_ (Governing Body)

1. Approves the filing of an application for the *(name of the project)*; and
2. Certifies that Applicant understands the assurances and certification in the application package; and
3. Certifies that Applicant or title holder will have enough funds to operate and maintain the project(s) consistent with the land tenure requirements; or will secure the resources to do so; and
4. Certifies that it will comply with all provisions of Section 1771.5 of the California Labor Code; and
5. If applicable, certifies that the project will comply with any laws and regulations including, but not limited to, the *California Environmental Quality Act (CEQA)* (or *National Environmental Policy Act (NEPA)* as applicable), legal requirements for building codes, health and safety codes, and disabled access laws, and that prior to commencement of construction all applicable permits will have been obtained; and
6. Certifies that Applicant will work towards the State Planning Priorities intended to promote equity, strengthen the economy, protect the environment, and promote public health and safety as included in Government Code Section 65041.1; and

---

<sup>1</sup> This Resolution serves as a template and subject to change depending on the type of project and negotiations with the grantees. Some projects may require a limited waiver of sovereign immunity.

- 7, Appoints the (*designate position, not person occupying position*) \_\_\_\_\_, or designee, as agent to conduct all negotiations, execute and submit all documents including, but not limited to, applications, agreements, payment requests and so on, which may be necessary for the completion of the aforementioned project(s).

Approved and adopted the \_\_\_\_\_ day of \_\_\_\_\_ 20\_\_\_\_. I, the undersigned, hereby certify that the foregoing Resolution Number \_\_\_\_\_ was duly adopted by the \_\_\_\_\_.

(Governing Body)

Following Roll Call Vote:

Ayes: \_\_\_\_\_

Nos: \_\_\_\_\_

Absent: \_\_\_\_\_

\_\_\_\_\_  
Clerk/Secretary for the Governing Board

## APPENDIX F - CERTIFICATION LETTER REQUIREMENTS <sup>2</sup>

If a tribe does not have a governing board or council, a certification letter from the council's Director or Chief Executive Officer must be furnished. The letter should:

1. Approve the filing of an application for the **(name of the project)**; and
2. Certify that the applicant(s) understands the assurances and certification in the application; and
3. Certify that the applicant(s) or title holder will have enough funds to operate and maintain the project consistent with the grant guideline requirements or will secure the resources to do so; and
4. Certify that the applicant(s) will comply with the provisions of Section 1771.5 of the California Labor Code; and
5. If applicable, certify that the project will comply with any laws and regulations including, but not limited to, the *California Environmental Quality Act (CEQA)* (or *National Environmental Quality Act (NEPA)* if applicable), legal requirements for building codes, health and safety codes, and disabled access laws, and that prior to commencement of construction all applicable permits will have been obtained; and
6. Certify that applicant will work towards the Governor's State Planning Priorities intended to promote equity, strengthen the economy, protect the environment, and promote public health and safety as included in Government Code Section 65041.1; and
7. Appoint the **(Title/Position of Authorized Representative (e.g., Executive Director, President, etc. Do not insert an individual's name))**, or designee, as agent to conduct all negotiations, execute and submit all documents including, but not limited to, applications, agreements, payment requests and so on, which may be necessary for the completion of the aforementioned project(s).
8. Contain the signature of the Council Director or Chief Executive Officer.

---

<sup>2</sup> This Resolution serves as a template and subject to change depending on the type of project and negotiations with the grantees. Some projects may require a limited waiver of sovereign immunity.

## APPENDIX G – ENVIRONMENTAL COMPLIANCE

Prior to approval and distribution of grant funds for construction/implementation, every proposed project shall comply with the California Environmental Quality Act, Division 13 (commencing with section 21000; 14 California Code of Regulations section 15000 *et seq.* [“CEQA”]). Projects may be required to comply with the National Environmental Policy Act (“NEPA”) depending on the specifics of the project.

The State of California, acting through its administering agencies and departments, will typically act as a responsible agency for the purposes of CEQA. Therefore, prior to the State approving funding for a proposed project, **one** of the following **must** be submitted.

- a. The Notice of Exemption filed with the County Clerk and State Clearinghouse (as applicable) if the proposed project is categorically or statutorily exempt, with the appropriate Public Resources Code section citation to the exemption(s) being relied upon by the lead agency.
- b. The Negative Declaration or Mitigated Negative Declaration adopted by the lead agency and Initial Study, including a copy of the Environmental Checklist Form located in Appendix G of the CEQA Guidelines and the Notice of Determination filed with the County and with the State Clearinghouse. If the lead agency has adopted a Mitigated Negative Declaration, the applicant must also provide the adopted mitigation monitoring and reporting program\*.
- c. The Final Environmental Impact Report certified and adopted by the lead agency with Initial Study, including a copy of the Environmental Checklist Form located in Appendix G of the CEQA Guidelines, the adopted mitigation monitoring and reporting program, and the Notice of Determination filed with the County and the State Clearinghouse. Please include any State Clearinghouse Responses received by the applicant\*.

\*For b and c, include documentation the State of California Department of Fish and Wildlife CEQA fee was paid or is not applicable.

- d. Projects that tier from a Programmatic, Master, or other Environmental Impact Report shall include a copy of any subsequent Initial Study for the proposed project together with a copy of any supplementary environmental documentation adopted by the lead agency, including, if applicable, any required findings pursuant to Public Resources Code section 21157.1, subdivision (c), and the Notice of Determination, filed with the County Clerk and with the State Clearinghouse, as applicable.

Pursuant to section 75102 of the Public Resources Code, before the adoption of a Negative Declaration or Environmental Impact Report, the lead agency shall notify the proposed action to California Native American tribes identified on the contact list

maintained by the Native American Heritage Commission as having ancestral lands located within the area of the proposed project.

**Native American Graves Protection and Repatriation Act (NAGPRA):** Grantees must comply with NAGPRA which provides a process to return certain Native American cultural items – human remains, funerary objects, sacred objects, or objects of cultural patrimony – to lineal descendants, culturally affiliated Indian tribes and Native Hawaiian organizations.

**National Historic Preservation Act:** Projects involving construction, renovation, repair, rehabilitation, or ground or visual disturbances must follow the Secretary of the Interior's Standards for the Treatment of Historic Properties, where appropriate, to ensure the historical integrity of the project, and comply with the National Historic Preservation Act, Section 106.

DRAFT

**APPENDIX H – PROPERTY DATA SHEET**

Complete the Property Data Sheet listing each parcel included in the proposed project, as well as the owner(s) of each parcel. Indicate and attach all required documents\* including any clarifying comments below. Attach additional sheets if necessary.

No	Owner Name	Assessor Parcel Number(s)	Acreage	If parcel(s) owned by Grantee(s), indicate type of ownership			For all parcels, indicate *document used to demonstrate ownership and attach a copy of each document-clearly labeled with the APN-to this document	If parcel(s) not owned by Grantee(s) indicate *document verifying long term Permission to Develop, maintain, or burn <b>and attach</b>

**Total Number of Acres:** \_\_\_\_\_

## **APPENDIX I – SITE CONTROL/LAND TENURE REQUIREMENTS**

The State recognizes that specific activities on the project property may change over time; however, all uses on the property must remain compatible with the Tribal Nature-Based Solutions Grant Program, in accordance with the following requirements:

### **Development Projects**

Grantee shall maintain and operate the property developed pursuant to this grant for a period of:

- At least 10 years for grants \$300,000 or more.

Grantee shall not use or allow the use of any portion of the real property for mitigation (i.e., to compensate for adverse changes to the environment elsewhere).

Grantee shall not use or allow the use of any portion of the real property as security for any debt.

With the approval of the State, Grantee or Grantee's successor in interest in the property may enter into an agreement with another party to maintain and operate the property in accordance with this grant program. At a minimum, the agreement must do the following:

- Clearly spell out the roles of each party in detail
- Be signed by both parties signifying their acceptance
- Not terminate prior to the length of site control/land tenure required by the grant agreement (only agreements that allow early termination for cause or by mutual consent will be acceptable)
- Include language that Grantee will resume responsibility for ongoing operation and maintenance in the event of cancellation

Grantee may be excused from its obligations for operation and maintenance of the project site only upon the written approval of the State for good cause. Good cause includes, but is not limited to, natural disasters that destroy the project improvements and render the project obsolete or impracticable to rebuild.

### **Capital Vehicle Acquisition Projects**

Grantee shall maintain and operate the vehicle acquired pursuant to this grant for a period of at least eight years.

Grantee may be excused from its obligations for operation and maintenance of the vehicle only upon the written approval of the State for good cause. Good cause includes, but is not limited to, natural disasters that damage the vehicle and render the use obsolete.

## APPENDIX J – PROJECT PERMIT APPROVAL STATUS

Indicate the status of all federal, state, tribal and local permits required for the project. Describe any potential delays due to permitting (indicate specific permits). **If acquiring a long-term encroachment permit, submit evidence the entity with jurisdiction is aware of the project and is willing to work with applicant to issue the permit.**

This list is not all-inclusive. It is grantee's responsibility to identify and obtain all applicable permits.

PERMITTING AGENCY	TYPE OF REQUIREMENT	REQUIRED	APPLIED	ACQUIRED	DATE EXPECTED
<b>State Agencies</b>					
Department of Fish & Wildlife	Lake or Streambed Alteration Agreement (Section 1600)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
Department of Fish & Wildlife	Incidental Take Permit or Consistency Determination (CESA) (California Endangered Species Act)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
Department of Transportation	Encroachment Permit	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
Coastal Commission	Coastal Development Permit	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
Coastal Commission	Letter of Consistency	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
Regional Water Quality Control Board	401 Water Quality Certification or Waste Discharge Requirement	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
State Water Resources Control Board	Water Rights Permit	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
State Water Resources Control Board	General Industrial Stormwater Permit	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
State Lands Commission	Permit (if using State-owned property)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
State Office of Historic Preservation	Section 106 Consultation with State Historic Preservation Officer (National Historic Preservation Act of 1986)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
California Department of Forestry and Fire Protection	Project Type Burn Permit (Form LE-7)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<b>Federal Agencies</b>					
U.S. Fish and Wildlife Service	Section 7 Consultation, Biological Opinion or Section 10 Permit (Endangered Species Act)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
U.S. Army Corps of Engineers	Section 404 Permit (Clean Water Act)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
U.S. Army Corps of Engineers	Section 10 Permit (Rivers & Harbors Act of 1899)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
U.S. Coast Guard / U.S. Army Corps of Engineers	Section 9 Permit (Rivers & Harbors Act of 1899)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

City/County	Model Water Efficient Landscape Ordinance (MWELo) Landscape Documentation Package	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
Central Valley Flood Protection Board	Permission to Encroach on Waterways within Designated Floodways	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
S.F. Bay Conservation and Development Commission	Any relevant permit	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	

### 1.31.2023 Final Draft Grant Guidelines

Tahoe Regional Planning Agency	Any relevant permit	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
Local Resource Conservation District	Consultation	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
Flood Control Districts	Floodway & Hydrological Analysis	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<b>Others</b> (e.g., CalRecycle, State Contractors Board, etc.):		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	

DRAFT

## APPENDIX K – PAYEE DATA RECORD

Applicants must provide a completed and signed STD 204 Payee Data Record form. The Payee Data Record is required when receiving payment from the State of California.

A fillable form can be found at <https://resources.ca.gov/-/media/CNRA-Website/Files/grants/AdminForms/std204.pdf>.

STATE OF CALIFORNIA – DEPARTMENT OF FINANCE			
<b>PAYEE DATA RECORD</b>			
(Required when receiving payment from the State of California in lieu of IRS W-9 or W-7)			
STD 204 (Rev. 03/2021)			
<div>Print Form</div> <div>Reset Form</div>			
<b>Section 1 – Payee Information</b>			
<b>NAME</b> (This is required. Do not leave this line blank. Must match the payee's federal tax return)			
<b>BUSINESS NAME, DBA NAME or DISREGARDED SINGLE MEMBER LLC NAME</b> (If different from above)			
<b>MAILING ADDRESS</b> (number, street, apt. or suite no.) (See instructions on Page 2)			
<b>CITY, STATE, ZIP CODE</b>			<b>E-MAIL ADDRESS</b>
<b>Section 2 – Entity Type</b>			
Check one (1) box only that matches the entity type of the Payee listed in Section 1 above. (See instructions on page 2)			
<input type="checkbox"/> <b>SOLE PROPRIETOR / INDIVIDUAL</b> <input type="checkbox"/> <b>SINGLE MEMBER LLC</b> Disregarded Entity owned by an individual <input type="checkbox"/> <b>PARTNERSHIP</b> <input type="checkbox"/> <b>ESTATE OR TRUST</b>		<input type="checkbox"/> <b>CORPORATION</b> (see instructions on page 2) <input type="checkbox"/> <b>MEDICAL</b> (e.g., dentistry, chiropractic, etc.) <input type="checkbox"/> <b>LEGAL</b> (e.g., attorney services) <input type="checkbox"/> <b>EXEMPT</b> (e.g., nonprofit) <input type="checkbox"/> <b>ALL OTHERS</b>	
<b>Section 3 – Tax Identification Number</b>			
Enter your Tax Identification Number (TIN) in the appropriate box. The TIN must match the name given in Section 1 of this form. Do not provide more than one (1) TIN. The TIN is a 9-digit number. <b>Note:</b> Payment will not be processed without a TIN.			<b>Social Security Number (SSN) or Individual Tax Identification Number (ITIN)</b> _____ - ____ - ____  <b>OR</b> <b>Federal Employer Identification Number (FEIN)</b> _____ - ____ - ____
<ul style="list-style-type: none"> <li>For <b>Individuals</b>, enter SSN.</li> <li>If you are a <b>Resident Alien</b>, and you do not have and are not eligible to get an SSN, enter your ITIN.</li> <li>Grantor Trusts (such as a Revocable Living Trust while the grantors are alive) may not have a separate FEIN. Those trusts must enter the individual grantor's SSN.</li> <li>For <b>Sole Proprietor or Single Member LLC (disregarded entity)</b>, in which the sole member is an individual, enter SSN (ITIN if applicable) or FEIN (FTB prefers SSN).</li> <li>For <b>Single Member LLC (disregarded entity)</b>, in which the sole member is a business entity, enter the owner entity's FEIN. Do not use the disregarded entity's FEIN.</li> <li>For all other entities including LLC that is taxed as a corporation or partnership, estates/trusts (with FEINs), enter the entity's FEIN.</li> </ul>			
<b>Section 4 – Payee Residency Status</b> (See instructions)			
<input type="checkbox"/> <b>CALIFORNIA RESIDENT</b> – Qualified to do business in California or maintains a permanent place of business in California. <input type="checkbox"/> <b>CALIFORNIA NONRESIDENT</b> – Payments to nonresidents for services may be subject to state income tax withholding.			
<input type="checkbox"/> No services performed in California <input type="checkbox"/> Copy of Franchise Tax Board waiver of state withholding is attached.			
<b>Section 5 – Certification</b>			
I hereby certify under penalty of perjury that the information provided on this document is true and correct. Should my residency status change, I will promptly notify the state agency below.			
<b>NAME OF AUTHORIZED PAYEE REPRESENTATIVE</b>		<b>TITLE</b>	<b>E-MAIL ADDRESS</b>
<b>SIGNATURE</b>		<b>DATE</b>	<b>TELEPHONE</b> (include area code)
<b>Section 6 – Paying State Agency</b>			
Please return completed form to:			
<b>STATE AGENCY/DEPARTMENT OFFICE</b>		<b>UNIT/SECTION</b>	
<b>MAILING ADDRESS</b>		<b>FAX</b>	<b>TELEPHONE</b> (include area code)
<b>CITY</b>	<b>STATE</b>	<b>ZIP CODE</b>	<b>E-MAIL ADDRESS</b>

Safeguarding California – California's Climate Adaptation Strategy

<http://resources.ca.gov/climate/safeguarding/>

## APPENDIX M – DEFINITIONS

Unless otherwise stated, the terms used in these grant guidelines have the following meanings:

**30x30 Conservation Areas** – means land and coastal water areas that are durably protected and managed to sustain functional ecosystems, both intact and restored, and the diversity of life that they support.

**Acquisition** – means obtaining fee title to property, conservation easement, or water rights.

**Agency** – means the California Natural Resources Agency.

**Applicant** – means an eligible California Native American tribe or organization in close partnership with a California Native American tribe requesting funding from the Program administered by the State.

**Biodiversity** – means the variety of life in a particular habitat or ecosystem.

**Carbon Neutrality** - means when the flux of greenhouse gas sources and sinks are equal.

**CEQA** – means the California Environmental Quality Act, Public Resources Code Section 21000 et seq.; Title 14, California Code of Regulations, Section 15000 et seq.

**Climate Adaptation** - means an action or set of actions that reduce physical climate risk.

**Climate Resilience** – means a state of readiness to face climate risks.

**Climate Smart** – means to describe land management that delivers climate benefits through nature-based solutions.

**Climate Vulnerable Communities** - means communities that are faced with climate vulnerability and the degree to which natural, built, and human systems are at risk of exposure to climate change impacts. Vulnerable communities experience heightened risk and increased sensitivity to climate change and have less capacity and fewer resources to cope with, adapt to, or recover from climate impacts. These disproportionate effects are caused by physical (built and environmental), social, political, and/ or economic factor(s), which are exacerbated by climate impacts. These factors include, but are not limited to, race, class, sexual orientation and identification, national origin, and income inequality.

[https://opr.ca.gov/docs/20200720-Vulnerable\\_Communities.pdf](https://opr.ca.gov/docs/20200720-Vulnerable_Communities.pdf)

**Cultural burn or cultural burning** – means the intentional application of fire to land by California Native American tribes, tribal organizations, or cultural fire practitioners to achieve cultural goals or objectives, including for subsistence, ceremonial activities, biodiversity, or other benefits.

**Cultural Resource** – means tangible physical evidence or place of past human activity. These may include buildings, structures, prehistoric sites, historic or prehistoric objects or collections, rock inscriptions, religious sites, and landscapes or natural features of significance to a group of people.

**Cultural fire practitioner** – means a person associated with a California Native American tribe or tribal organization with experience in burning to meet cultural goals or objectives, including for subsistence, ceremonial activities, biodiversity, or other benefits.

**Deliverables** – means the “final products” of a task. It reflects the tangible result of the completion of a task.

**Development Project** – means a project that physically improves, builds, or changes land or structures. Development projects may require permits, environmental reviews, and long-term access and operation and maintenance agreements.

**Implementation** – includes, but is not limited to, improvement, rehabilitation, restoration, enhancement, preservation, protection, and interpretation.

**Direct Costs** – means costs associated with the development, administration, planning and management of the project which are specifically incurred for the benefit of the project.

**Fund or Funds** – means the Tribal Nature-Based Solutions program funds created by Chapter 249, statutes of 2022 (Assembly Bill 179).

**Grant Agreement** – means an arrangement between the State and Grantee specifying the payment of funds by the State for the performance of specific project objectives within a specific project performance period by the Grantee.

**Grantee** – means an applicant that has an agreement for grant funding with the State.

**Grants Administrator** – means an employee of the State who manages the grants.

**Indirect/Overhead costs** – non-project specific costs of doing business that are not directly related to the implementation of the project to be funded (for example, rent, computers, telephones, office supplies, internet access, copy machines, electricity). Certain types of overhead are not allowed including, fundraising, lobbying and entertainment. Any cost that is billed as a direct cost may NOT be included in overhead.

**In-Kind** – means non-cash donations, from governmental or private sources, and includes volunteers, materials and services.

**Interpretation** – includes, but is not limited to, a visitor-serving amenity that enhances the ability to understand and appreciate the significance and value of natural, historical and cultural resources and that may utilize educational materials in multiple languages, digital information, and the expertise of a naturalist or other skilled specialist.

**Land Tenure/Site Control** – means the applicant owns the project land or has other legal long-term interest with the landowner that is satisfactory to the State.

**Local Agency** – means any political subdivision of the State of California, including, but not limited to, any county, city, city and county, district, joint powers authority, local community conservation corps agency, or council of governments.

**Multi-benefit** – means projects that produce two or more benefits. For the purposes of the Program, multi-benefit projects must produce two or more of the benefits, include addressing climate change, improving public health, increasing equity, and protecting biodiversity, as defined by the *Natural and Working Lands Climate Smart Strategy* and *Pathways to 30x30 Strategy*.

**NAGPRA** – means The Native American Graves Protection and Repatriation Act that provides a process to return certain cultural Native American items – human remains, funerary objects, sacred objects, or objects of cultural patrimony – to lineal descendants, and cultural affiliated Indian tribe and Native Hawaiian organizations.

**Nature-Based Solutions** – means actions that work with and enhance nature to help address societal challenges. This term describes a range of approaches that protect, sustainably manage, and restore nature to deliver multiple outcomes, including addressing climate change, improving public health, increasing equity, and protecting biodiversity.

**Natural and Working Lands** – means a cornerstone of California's nature-based climate solutions sector. These lands cover approximately 90 percent of the state's 105 million acres and include forests, shrublands and chaparral, grasslands, croplands, wetlands, seagrasses and seaweeds, developed lands, and sparsely vegetated lands.

**Natural Resource** – means materials or substances such as minerals, plants, water, animals and fertile land that occur in nature.

**NEPA** – means The National Environmental Policy Act that establishes national environmental policy and goals for the protection, maintenance, and enhancement of the environment and provides a process for implementing these goals within federal agencies.

**Nonprofit Organization** – means a nonprofit corporation qualified to do business in California and qualified under Section 501(c)(3) of the Internal Revenue Code and incorporated for a minimum of two (2) years.

**Other Sources of Funds** – means cash or in-kind contributions that are required or used to complete the project beyond the grant funds provided by the Youth Community Access Grant Program.

**Program** – means a planned, coordinated group of activities or procedures, often with a common goal.

**Project** – means the vehicle acquisition, restoration, forest health or planning activities to be accomplished with grant funds, and other funds, if necessary, that meets eligibility requirements.

**Project Performance Period** – refers to the beginning and ending dates of the grant agreement. Eligible costs incurred during this period may be funded from the grant.

**Project Scope** – means the description or activity of work to be accomplished by the project.

**Public Access** – means the ability of members of the public to use or benefit from a capital project or program.

**Public Agency** – means any State of California department or agency, a county, city, public district or public agency formed under California law.

**Secretary** – means the Secretary for Natural Resources or his/her representative.

**State** – means a political subdivision of the State of California.

**Tasks** – means itemized steps that are necessary to fulfill the proposed project.

**Traditional Ecological Knowledges** – means the evolving knowledge acquired by indigenous and local peoples over hundreds or thousands of years through direct contact with the environment, is location-specific, and includes relationships between plants, animals, natural phenomena, landscapes and timing of events used for lifeways, including but not limited to hunting, fishing, trapping, agriculture, and forestry or defined by individual Native American tribal governments to fit the need of their community.

## END OF GUIDELINES
